Profile

Aspiring full-stack developer with a strong background in sales and technical support at AT&T. Currently completing a bootcamp in full-stack web development, with hands-on experience in building web applications using Node.js, React, GraphQL, and MongoDB. Passionate about creating user-friendly, responsive, and interactive web applications.

Skills

- **Languages:** JavaScript, HTML, CSS
- **Frameworks/Libraries:** Node.js, React, Express.js, Tailwind CSS, Chakra UI, Bootstrap
- **Databases:** PostgreSQL, MongoDB, Mongoose
- **Tools:** Git, Inquirer, Webpack, Vite, Apollo Server, GraphQL
- **Other:** JWT Authentication, PWA Development, RESTful APIs, Responsive Design

Projects

Vegas Poker Pulse

- Built using React, MongoDB, GraphQL, and Chakra UI for styling.
- Developed a web application for real-time poker statistics and player tracking.
- Enabled users to view detailed event information, including dates, times, and special features.
- Implemented features for scheduling and managing poker calendars effortlessly.
- Included real-time updates, personalized schedules, and interactive filters to ensure users never miss out on the action.

Command-line Employee Database Application

- Utilized Node.js, Inquirer, and PostgreSQL to manage company employee data.
- Developed functions for viewing, adding, updating, and deleting employee information.

Notable Coursework and Achievements

- Successfully resolved various project-specific issues, including module installation and database schema corrections.
- Actively participated in a team project to create a MERN stack single-page application, implementing GraphQL, JWT authentication, and polished UI design.
- Developed expertise in Tailwind CSS and implemented various plugins for enhanced styling.
